

SANTO DOMINGO TRUCE ENDS---CAN APPEAL NOW TO SUPREME COURT

EFFORTS OF COUNSEL TO BRING NORTHERN SECURITIES COMPAN-
ABOUT PEACE HAVE FAILED NY HAS ONE COURSE OPEN

President Vasquez Tries to Rout Rebels From Their Position, but Fails After Hard and Weary Fighting

Santo Domingo, April 10.—The negotiations for the peaceful settlement of the questions in dispute as initiated by counsel have failed, and the suspension of hostilities ended at 10 o'clock Wednesday, when President Vasquez opened fire upon the revolutionary position.

The rebels in this city replied with cannon, and the fighting lasted during the whole of yesterday and last night, only ceasing this morning, by which time Vasquez's troops had been finally repulsed in their assault on the city.

The number of killed and wounded is unknown.

The government troops made a second attempt this morning to force their way into the city, but after a heavy fight on the banks of the river they were again thrown back. General Peppin, of the insurgents, was killed.

ELECTIVE COURSE AT YALE

Freshmen May Drop Greek, Latin and Mathematics

New Haven, Conn., April 10.—Hereafter all four years of the college course at Yale are to be elective in character. By a new rule eight courses will be opened to the freshmen and this rule will make it possible for a freshman to drop Greek, Latin and mathematics on his entrance to college. It also will lead to the dropping of Greek from the examinations for admission to Yale.

LETTER FROM CLEVELAND

Ex-President Writes Negro Winner of A Prize at Yale

New Haven, Conn., April 10.—One of the letters received by William Pickens, the negro orator who won the Ten Byck prize at Yale last week and who is the first negro in the history of the university that has been so honored, was from Grover Cleveland, as follows:

"Princeton, N. J., April 2, 1903.—Mr. William Pickens:—I have seen in the newspapers today an account of your successful winning of the Ten Byck prize. I am desirous of reading your successful essay, if it is possible for you to send me a copy or a fairly full newspaper report of it. "Grover Cleveland."

SALT TRUST ADVANCES PRICES

Heavy Increase Made in Tariff of In-land Salt Company

Salt Lake, Utah, April 10.—The Island Crystal Salt company, which controls the markets of Arizona, Nevada, Utah, Wyoming, Idaho, Montana and in part of those of Oregon and Washington has, it is announced, advanced the price of coarse salt from \$5 to \$9 a ton, and of tanners and brewers' salt from \$9 to \$29 a ton. Officials of the company stated today that the advance was simply to put the business on a paying basis, which it had not been for a long time on account of the competition of independent firms.

SHAMROCK'S OPPONENT

Bristol, R. I., April 10.—There will be launched tomorrow evening at Herreshoff's works a ninety-foot composite fin-knot sloop yacht, which a syndicate of six prominent yachtsmen of the New York Yacht club have constructed for the defense of America's cup against Lipton's Shamrock III.

WORST IS OVER

Nearly \$200,000 Spent in Work on Crevasse Break at Hymelia

New Orleans, April 10.—A force of 350 men is at Hymelia crevasse today, sacking wings of the cribbing and attempting to make secure the broken ends, but no further attempt was made to close the break.

If the wings last, there is no fear that the crevasse in the levee will enlarge. It is estimated that between \$100,000 and \$200,000 have been sunk in the work at Hymelia. It is believed the worst of the food is over.

THE GERMAN CITIZEN WILL NOT BE FOUND WANTING

By GEORGE VON SKAL, Editor of the New York Staats-Zeitung

THE Germans' love for the fatherland, where we were born and reared, where a mother's loving hand guided our first steps, where we were prepared for the struggle that awaited us, cannot be torn from our hearts, and the man capable of forgetting the love that surrounded him when he was in direct need of it could under no circumstances become a valuable and estimable member of any society on the face of this earth.

But this love has its limitations. It exerts no influence upon our relations to the only country that we now call our own and our home, to which we have sworn allegiance—the United States.

Our loyalty and all our strength belong to the country that took us to her bosom when, unasked and unbidden, we came here to seek the opportunities that were denied and refused us in the land of our birth.

We never forget that we owe an immense debt of gratitude to the American people, and we incessantly strive to discharge it. The fruits of these efforts are written on every page of the history of this country; they are visible in every field of human activity—in commerce and the arts, in the industrial as in the spiritual progress of the American people, in war and in peace. Never has the adopted citizen of German birth failed to do his duty to his new country; never will he be found wanting when the time for action arrives.

FIFTY GOING TO SEE PRESIDENT ROOSEVELT

It is now less than a month until President Roosevelt enters Arizona to pay his first visit to the Grand Canyon. If present plans are carried out, Bisbee will have a bigger delegation on the banks of the Colorado than any other city in the territory.

George Roberts stated yesterday that he is receiving letters from different parts of the county, asking questions about the special party that will be made up in this city. The writers are mostly veterans of the Civil and Spanish-American wars.

"We are not going to have less than fifty people in our party," says Roberts, "and those who want to make the trip had better be getting their names in early. Our special car will not accommodate more than fifty. If needed we will get two cars."

Though no special publicity has been made of the fact, Governor Brodie is making arrangements to give a royal reception to President Roosevelt on the occasion of his visit to Arizona and to that end has sent invitations to a number of the former officers of the Arizona contingent of the Rough Riders and other officials to join him in the formation of a special private car excursion to the Grand Canyon.

Announcement of the acceptance of the invitation by some, has been made through the territorial press and on inquiry it is learned that the private car is being arranged for by Adjutant General Lowell and Colonel McClintock, and that it will be for the accommodation of about twenty of the personal friends of the President.

The car will probably leave Phoenix on May the 4th and meet the President at Williams. It will be a sort of a Rough Rider's reunion as well as an official welcome to Arizona.

In addition to this the S. F. P. & P. railroad expects to run a general excursion to Williams from Phoenix and Prescott on the same date for the accommodation of all others who desire to see the President.

NACAZARI ROAD TO BE EXTENDED

ACTIVE WORK WILL BE COMMENCED WITHIN TWO WEEKS

Contractors Names Will Be Given Out Today—Heavy Rock Work to Be Done for the Entire Distance

Superintendent Douglas of the Moctezuma Copper company at Nacozari, arrived in the city last evening and will remain for a few days on important business connected with his company.

Mr. Douglas vouchsafed the important information last evening that the Nacozari railroad will be extended immediately to Nacozari, a distance of twenty-two miles, from Cos station, the present terminus of the road. Active work on the grade will be commenced within the next two weeks. In all probability Orman and Crook will be awarded the contract for this new piece of road, but this has not been finally decided as yet, but will be settled at a meeting of El Paso and Southwestern officials to be held in this city today.

The building of this new piece of road is an extension of the Nacozari road as originally surveyed. That part of the road between Cos station and Nacozari will require very heavy work and it is expected the line will not be completed to Nacozari within six months. Work was discontinued on the Nacozari railroad at the time track-laying was started on the El Paso and Southwestern, east of Douglas. It was announced at that time that shortly after the El Paso and Southwestern was completed to El Paso, work would be resumed on the Nacozari railroad.

The distance from Douglas to Nacozari is seventy-seven miles. For the

TO STOP CRUELTY IN GERMAN ARMY

NUMEROUS INSTANCES OF ILLEGAL TREATMENT OF SOLDIERS

Emperor William is Interested—One Army Officer Says Soldiers Should Report Any Mistreatment of Officers

Berlin, April 10.—The numerous instances of ill treatment of soldiers by officers and non-commissioned officers have caused Emperor William and the sovereigns of the individual states of Germany to unite in special measures to put a stop to it.

The text has just been made public of an order issued on the subject by the hereditary Prince of Saxony-Meiningen, commander of the Sixth army corps, who advises the soldiers to lodge complaints when they are ill-treated. He says:

"Officers must explain frequently to the soldiers that it is neither the wish of his majesty and their other superiors, nor does it correspond with the reasonable feeling of self-respect to private that they silently tolerate ill-treatment. If soldiers do not report ill-treatment it is well nigh impossible for their superiors to take steps for their protection and call to responsibility the officers guilty of cruelty. Soldiers really encourage, through their silence, the rough treatment given them, contrary to the rules, and in the course of time this becomes force of habit."

present the road will not be extended south of Nacozari. This announcement was made by an official of the company last evening.

The Nacozari line will pass through a rich mineral district that is daily growing in importance and proving a source of revenue to Douglas.

IOWA BADLY DAMAGED BY EXPLOSION---DOES NOT HEAR FROM PRESIDENT

IS ENJOYING HIMSELF IN STUDY OF PLANTS AND ANIMALS

Where Snow is Falling—Will Be Joined by Naturalist Burroughs

Cinnabar, Mont., April 10.—Private Secretary Leob received no word from President Roosevelt today. The President is in the mountains at camp, forty miles from headquarters.

When he started from this place yesterday morning, it was his intention to remain there a number of days and possibly a week. Snow fell today in the vicinity in which the President had gone, but the fall is not heavy.

John Burroughs, naturalist, did not accompany the President, as he was suffering from a slight cold. This has almost disappeared now, and it is Burroughs' intention to join the President tomorrow.

While Burroughs will be with the President off and on during his stay in the park, he will not accompany him on all his trips. President Roosevelt is studying animal and plant life in the park, and is enjoying himself.

Blind Chaplain Dies

Santa Barbara, April 10.—Rev. William Milburn blind chaplain of the United States senate died here today from a paralytic stroke which he suffered in Lincoln, Nebraska, three years ago.

ARRESTED FOR SIMPLE ASSAULT

PROFESSOR SMALLWOOD TO BE TRIED THIS MORNING

Complaint Sworn Out in Justice McDonald's Court by A. Bauer—Case Attracting Much Attention

At 10 o'clock this morning Professor Smallwood, head of the public schools in Bisbee, will be tried before Justice McDonald for assaulting Gus Bauer, the 13-year-old son of A. Bauer. The assault is based upon a whipping given the boy last Wednesday morning in the Central school.

Professor Smallwood was arrested yesterday morning by Constable Casad just before entering upon his school duties for the day. He appeared before Justice McDonald and pled not guilty. The warrant upon which the arrest was made was sworn out at the request of A. Bauer.

The case was first set for hearing yesterday afternoon and at that time Professor Smallwood, represented by Attorney W. P. Miller, appeared in the justice court. Counsel for defense asked for jury trial, to which Attorney J. M. O'Connell, who is representing Bauer made no objection.

Counsel for both sides agreed that 10 o'clock this morning would be the proper time for hearing the case. The venire for a jury has been placed in the hands of Constable Casad. He will summon a large number as the case is attracting a great deal of attention, and the selection of a jury promises to be a difficulty.

The alleged assault was committed in the room of Miss Coffey, she having called in the professor to chastise the boy. All of the scholars in her room were present, and have been notified to be present today to give their testimony in the case. Those not appearing will be fined for contempt of court.

The charge against Professor Smallwood is simple assault, this being the only grounds on which he can be arrested. The boy's injuries will remain but a few days longer. He now suffers considerable pain from the bruises on his shoulder, not being able to lift one of his arms above his head.

When the case was called yesterday, the steps in front of the justice court were crowded with school children, who are anxious to hear the testimony against their professor. School Trustee Hammer was present yesterday, and left the court room in company with Professor Smallwood.

WAR ON SHILOK

(Communicated.)

The tax payers of Bisbee and Douglas are confronted by the Bond Issuing League. No sane man would oppose the building of Public Schools, that promote civilization, liberty, equality, Brotherhood of man and progress. But these oracles of learning should be free from infamous speculation and built by direct tax or Town script.

The incorporated cities should be improved by same method.

C. J. Radovich.

HAS BEEN ORDERED TO NEW YORK YARDS FOR REPAIRS

Turrets are Damaged—Big Boat Goes Out of Commission for Time

Pensacola, Fla., April 10.—The damage to the battleship Iowa, caused by the premature explosion of a shell in the forward port of a 12-inch gun, was more serious than was thought when the first report was made.

As a consequence, the big ship has been ordered to the New York navy yard to go out of commission. She steamed down to the Pensacola yard today, where she is fitting out with supplies and coal, preparatory to starting as soon as possible for the north.

It is feared that the steel supports under the 12-inch port turrets are sprung to such an extent that they will have to be removed, though this cannot be positively stated as yet.

The gun itself is a total wreck. Although the gun burst into numberless pieces the end of the gun is as smooth as if it had been turned out of a shop. Reports that the gun had been condemned are without foundation.

LOS ANGELES STRIKE

Many Union Members of Building Trades Council are Affected

Los Angeles, April 10.—The Building Trades council this afternoon ordered all the union men employed on buildings where non-union men are employed to cease work.

The order will go into effect tomorrow. The council claims 6000 members in this city. Many large buildings under construction will be affected and work on many will be suspended.

MONEY LENDER SENTENCED

Says Battle With "Social Humbugs" Made His Business Pleasant

Berlin, April 10.—Heinrich Pariser, a wealthy money lender, was sentenced today to two years' imprisonment and to pay a fine of \$2,500 for usury. Sixty specifications were brought, including the complaints of several noblemen and army officers. In one instance he charged Baron Von "H" (the court did not permit his full name to be known) 234 per cent, which the baron paid, though he had an unmortgaged income from a landed estate amounting to \$25,000 yearly. Another exception case was that of a millionaire who paid interest at the rate of 100 per cent for a short term loan of \$5,000. Pariser admitted having charged the rates mentioned, but he said the enormous risks reduced his profits to 10 per cent on the capital invested and said his "gambling on human nature" enabled him to make only 5 per cent more than in regular business. Part of his return for so hazardous an occupation was the pleasure which his "daily battle with unscrupulous noblemen and social humbugs" gave him.

PEACEFUL SOLUTION LIKELY

Strike of Rome Cabmen Fails to Affect Easter Functions

Rome, April 10.—A peaceful solution of the strikes continues to be probable. The city has almost resumed the normal aspect, the only difference being the absence of cabs. Many pilgrims, especially Germans, have arrived for the Easter functions. They will be received in audience by the pope on Monday. In more than 200 churches Holy week services are proceeding without incident. The people rushed to see the sepulchres, and especially admired the one in the church of the American college.
